For more than 100 years, the editors of Popular Mechanics have been providing car enthusiasts with the skills and confidence they need to keep their vehicles running right and looking great. And this update to the magazine's popular car care manual gives owners more essential information than ever. It's absolutely crucial for anyone who wants to know the automobile's basic components, from the engine to the electronic systems, and to understand how they work, what can go wrong, and how to make repairs. The 7th IFIP Workshop on Software Technologies for Future Embedded and Ubiquitous Systems (SEUS) followed on the success of six previous editions in Capri, Italy (2008), Santorini, Greece (2007), Gyeongju, Korea (2006), Seattle, USA (2005), Vienna, Austria (2004), and Hokodate, Japan (2003), establishing SEUS as one of the emerging workshops in the field of embedded and ubiquitous systems. SEUS 2009 continued the tradition of fostering cross-community scientific excellence and establishing strong links between research and industry. The fields of both embedded computing and ubiquitous systems have seen considerable growth over the past few years. Given the advances in these fields, and also those in

the areas of distributed computing, sensor networks, middle-ware, etc. , the area of ubiquitous embedded computing is now being envisioned as the way of the future. The systems and technologies that will arise in support of ubiquitous embedded computing will undoubtedly need to address a variety of issues, including dependability, real-time, human-computer interaction, autonomy, resource constraints, etc. All of these requirements pose a challenge to the research community. The purpose of SEUS 2009 was to bring together researchers and practitioners with an interest in advancing the state of the art and the state of practice in this emerging field, with the hope of fostering new ideas, collaborations and technologies. SEUS 2009 would not have been possible without the effort of many people. Offers diagnosis and repair information for late-model Hyundai, Kia, and Lexus automobiles.
